3M applies science in collaborative ways to improve lives daily. Learn more about the company, the people, and the impact 3M can make.

Adam Tech continues its goal to offer a wide range of world class connectors and cable assemblies

Advanced Cable Ties provides the convenience of having all the cable ties and cable tie accessories any homeowner or tradesperson will ever need.

For over two decades, bright led has become one of the world's leading led suppliers seeking unusual quality and service.

As a division of Zettler Group North America, American Zettler Inc. offers application-engineering, sales, distribution and customer service for a broad product range of Electromechanical Relays to meet many specific requirements of diverse commercial and industrial applications.

Amphenol RF is the world's largest manufacturer of coaxial connectors for use in radio frequency, microwave, and data transmission system applications.

AVERY DENNISON designs and delivers pressure-sensitive adhesives and tapes, engineered fasteners, films and labeling materials for custom applications for the automotive industry.

Bivar offers innovative products to position components on PCBs, secure PCBs in enclosures, moving light with LED indication or upgrade LED lighting.

Brady is a manufacturer of complete solutions that identify and protect people, products and places. Brady's products help customers increase safety, security, productivity and performance and include high-performance labels, signs, safety devices, printing systems and software.

Bussmann products continue to reflect a long-standing tradition of providing fusible circuit protection and electrical safety solutions that help protect equipment and enable reliable, efficient power distribution.

CIT RELAY & SWITCH & RELAY manufacturers a broad array of automotive, telecom, security, industrial, and audio thru-hole and surface mount switches and relays.

E-Switch, headquartered in Minneapolis, Minnesota, has been delivering quality electromechanical switches to the telecom, high tech, medical, electronics, instrumentation, industrial, audio/visual, appliance and consumer markets since 1979.

ECS Inc. International is at the forefront of servicing a growing global demand for highly reliable and innovative passive components, components meeting the needs of the world today and beyond.

EDAC offers a wide range of products including Card Edge, Rack and Panel, RJ45 & Telecom Jacks, USB & Firewire, Waterproof, PLCC Sockets, D-Sub, Pin Headers and custom cable assemblies.

EPCOS, a TDK Group Company, develops, manufactures and markets electronic components and systems, focusing on fast-growing leading-edge technology markets, which include automotive electronics, industrial electronics and consumer electronics as well as information and communications technology.

HellermannTyton are one of the leading suppliers of products for fastening, fixing, identifying and protecting cables and their connecting components.

Holy Stone Enterprise Co. Ltd, also known as HEC, is a leading manufacturer of MLCC's.

JKL is one of the nation's leading suppliers and distributors of cold cathode fluorescent lamps, DC-AC inverters, LEDs, ultraviolet lamps, miniature and sub-miniature lamps and lighting accessories.

Johanson Technology specializes in the design and manufacture of high quality RF & Microwave ceramic chip capacitors, inductors and integrated passives.

The engineering teams of KOA Speer are developing a wide range of new smaller sizes and integrated packages to accommodate higher clock speeds and product downsizing.

Mag Layers' commitment to innovative technology, with advanced material, component design, processing, and automation, helps us to develop cutting edge and exciting products to the market.

NIC Components Corp. has been manufacturing and designing passive components for over 36 years. By integrating design, raw materials and production expertise, NIC has established itself as a leader in passive component technology.

NKK Switches designs, produces and sells the industry's most extensive selection of electromechanical switches, setting the standard for quality, stability and reliability in switch solutions.

NMB Technologies Corporation is a MinebeaMitsumi Group company; is a volume leader in the design and manufacturing of precision electro-mechanical components such as small motors, backlight and LED lighting products, and sensors.

Novacap is a Specialty Components manufacturer, which means we choose to take on the complex challenges that come with High Reliability, High Temperature, High Performance and High Frequency solutions.

Ohmite Manufacturing Company has been the leading provider of resistive products for high current, high voltage, and high energy applications for over 90 years. The company's full complement of resistor construction includes wirewound, wire element, thick film, and ceramic composition.

A world-class manufacturer of fuses, fuse holders, fuse clips, fuse blocks, circuit breakers, resettable fuses and accessories.

OST offers customers a variety of thousands of products. The most popular of these include terminal blocks, sockets, USB, headers and other interconnect products.

A manufacturer and supplier of Light Emitting Diode and Liquid Crystal Display products.

Leading Manufacturer of wire management/wire infrastructure equipment supporting power, communication, computing and security systems.

Power Dynamics offers a comprehensive range of interconnect products and accessories which are designed and manufactured to meet the application requirements of Original Equipment Manufacturers worldwide.

RCD's corporate energies have been channeled into the research, design, development and production of components with uncompromising levels of quality.

Widely known connector company with a commitment to exceptional service supporting quality board to board, high speed and automotive interconnect products.

Stackpole Electronics is a privately held company, which began manufacturing resistors in 1928 as part of Stackpole Components Company in St. Mary's, Pennsylvania, USA.

Complete line of electronic connectors, adapters and cable assembly including; DC Power Jacks, RCA Jacks, Audio, Video Jacks, Board to Board Interconnect Connectors, Switches, Modular Jacks, Custom Products/Connectors and mating cable assemblies, etc.

Syfer is a Specialty Components manufacturer, which means we choose to take on the complex challenges that come with High Reliability, High Temperature, High Performance and High Frequency solutions.

EPCOS, a TDK Group Company, develops, manufactures and markets electronic components and systems, focusing on fast-growing leading-edge technology markets, which include automotive electronics, industrial electronics and consumer electronics as well as information and communications technology.

Tocos is a worldwide supplier of electronic components specializing in quality potentiometer products.

WPI offers real solutions to manufacturing and supply line issues with an electronic component product offering that is synergistic and focused on major markets including; Automotive, Telecom, Industrial, Power Supply, Surge Suppression, and Wireless.

Global leader in Automotive Power, Data and Display Technologies specializing in connectors, wire harness, power distribution and EV Technologies.
